Sheffield[®] GROUP

The supplier of choice for independents

VISION

The supplier of choice
of tools and accessories
for independent resellers

MISSION

Partnering with distributors
to offer superior value
and business sustainability

VALUES

Partnership Focus

ABOUT SHEFFIELD

As a fourth generation, Australian family owned and operated company Sheffield Group has built a reputation of a Culture of Care combined with Products that Outperform.

Established in 1970 providing shaving razors to the Royal Australian Navy, Sheffield Group had stayed true to its foundations of providing cutting tools that can be trusted in the heat of battle

The two Sheffield Group foundations are; A Culture of Care and Products that Outperform. These are fulfilled through:

CULTURE OF CARE

We care at every level. From the professional who is using the tools every day, to the mum and dad renovating on the weekend; the valued independent distributor who is working hard to sell our products; the employee who spends hours packaging the blades into dispensers; right up to the manufacturer who produces the blades on their advanced grinding machines, we care for every one of them.

This ensures a consistently outstanding customer experience resulting in satisfied people right through the supply chain.

PRODUCTS THAT OUTPERFORM

Sheffield Group believes in providing an outstanding consumer experience. This means that every product must exceed the consumers expectations at each value point. The Sterling range is guaranteed to outperform as a result of our rigorous development and testing procedures. Every product is measured against the criteria: "Does it Outperform?"

The vision to Outperform is then reflected in every department of Sheffield Group. From the merchandisers in our clients showrooms through to the functions of customer care, marketing and operations. Not only do our products Outperform, so does our team!

THE SHEFFIELD EXPERIENCE

Sheffield Group is more than just about providing Outperforming tools and accessories. It is about dedication to the success of your business. We understand that outstanding in-store and post-purchase experiences result in greater prosperity through sustained profits. Our focus is to give you and your customers an experience that exceeds all expectations. By creating a vibrant store ambiance with enhanced merchandising clarity and providing consumers products that Outperform your choice of Sheffield as a partner in your business is guaranteed to bring rewards.

WHAT IS EASYREAD?

Easyread has been developed for optimised readability. The double-sided, white printed blade features vertical measurement markings for ease of use and improved distance reading - making it almost impossible to misread measurements.

Easyread is perfect for any application where the blade is away from the user making these markings. This is quickly becoming a must-have amongst tradesmen.
