 DID YOU KNOW

Greasing is an essential practice in any plant or workshop operation and when undertaken correctly can contribute to the overall effectiveness of equipment and profit generation of the business. Alemlube is well equipped to supply all your greasing essential equipment needs be they manually operated, air operated, battery operated or a specifically designed and installed automatic lubrication system on hardworking mining equipment, trucks & trailers, construction machines or conveyor systems.

Manufactured in Germany, Spain and the USA, the Alemlube range of hand greasing equipment is engineered and manufactured to the highest standards to ensure dependable long life service.

Alemlube offers a range of grease nipple assortment kits specifically compiled to suit a variety of markets and applications.

Popular grease nipples (case hardened, fully chromated, zinc passivated, batch tested to 8,000psi) have been packaged in a convenient compartmentalised carry box and are available for use in the automotive industry, agriculture, construction & general industry, mining and contracting and a kit of stainless steel grease nipples is available ideal for the marine, food and petro-chemical sectors or highly corrosive environments.

Alemlube grease nipples guarantee quality manufacturing and longevity in performance.
